Realize what Kellogg's Bran means to your family's health?

Bran will permanently relieve constipation; it will free you from dangerous toxic poisons that lead to 90%
of all human illness; it will remove
the cause and sweeten a bad breath;
it will clear a pimply complexion
through its work on the bowels. In
fact, Kellogg's Bran, through its
natural action as a bulk, indigestible
agent, will tone-up the whole system!

If you knew exactly what constipation means from a medical view-point
you would lose no time eating Kellogg's
Bran yourself and serving it daily
to your family. And, Kellogg's is
actually delicious, its nut-like flavor
adding greatly to the enjoyment of
eating cereals. Eat at least two tablespoonfuls each day; in chronic cases,
with each meal.

There are many attractive ways to
serve Kellogg's Bran. Hat it in winter
with hot milk as a cereal. Or, mix
it with cereals before serving. Many
housewives cook it with cereals, in
each case adding two tablesproonfuls
for each person. You will also enjoy
the nut-like flavor of Kellogg's Bran
when it has been sprinkled over hot
or cold cereals.
You have missed some of the joys
of life if you have not eater raisin
bread, muffins, griddle-cakes, etc., made
with Kellogg's Bran. Recipes are
printed on each box.

Don't delay your fight against constipation; don't lose a minute in the
great battle against illness! You can
buy Kellogg's Bran from all grocers
and you can have it served in individual packages at first-class hotels,
restaurants and clubs.

We mistook the vaporings of a few enemies of education for the the members home to recover such appendages f culture as dictionaries and adding machines.

Socrates: Of course not smaller business. We first misjudge he Legislature by imagining it to be with s found to have made off with educational impedimenta by means of which it hoped to acquire culture at home

Polemarchus: That is damfable. Socrates: It is worse than that my dear: Polemarchus. It spells the doom of Missouri's regeneration. Let us take a hypothetical case in which, say, a schoolboy makes off with the dictionary and the abacus. Polemarchus: Trul

This boy, let us say so thirsts for knowledge that when the school closes he makes off with the equipment for the purpose of study at home. Glaucon. The parallel is perfect

Socrates: I think so. Is there a schoolsdi-rectorate anywhere that would consent to have such a boy arrested, or a taxpayer in the State Who would feel that the purposes of education were to be conserved by inquiring too diligently into how the boy came by these things? Thrasymachus: I think not.

Socrates And rightly. Thranymachus. The offending member of our Legislature wanted to know how to spell, how to add and how write. Was it the part of good government i the State to look too closely into the means by which he abquired the things necessary to the gratification of this ambition, or was the amin itself in any way ignoble? Glaucon: No. indeed. Socrates: But the design of the State in mak-

Socrates: Then that is settled. Now let us buy a paper and see if Mr. Harding has gone over to see Mr. Wilson yet.

AMERICAN HISTORY FOR CHILDREN

Hawaii Annexed to United States After Spanish-American War, Though President Cleveland Previously Had Refused to Adopt That Policy.

By HENTRIK VAN LOON, Author of Mankind.

HE first white men to visit the Hawaiian Islands are supposed to have been the survivors from the crews of two panish ships, which were wrecked upon the coast in the ar of our Lord, 1527. They married Hawaiian women, and setled down happily. Today their descendants may be seen in a

In 1778 Capt. James Cook of England discovered the islands erain, and named them the Sandwich Islands, in honor of his vering them, for they killed and ate him. However, this exhi ion of "Schrecklichkeit" upon their part did not deter other hip captains from visiting the shores, and soon the Sandwich ds became a base for the whaling vessels of the North.

GIRLS FIND EASY WAY TO WAVE HAIR

Blagg testified that she Use New Liquid Which Gives

Many St. Louis girls now know that to have beautiful wavy hair is one of the easiest things in the world. All they need do is apply to their hair a few drops of a wonderful new liquid—a liquid which makes even the stubbornest hair faul in oof; elliv curls and

est hair fall in soft, silky curls and charmingly natural waves. Best of all-just one application of this new liquid will give the hair a eautiful, permanent wave effect, keep-ng it wavy and in curl from 7 to 10 lays often longer. Thus, when a girl uses this new liquid she can forget all about her hair for more than a week. No need to bother curling it every night or every other night

This new liquid is called Demino relette, and those who have used it y that it is simply wonderful. Use the good old-fashloned kid curiers, but before doing so, just moisten the hair with a faw drops of Domino Curiette, Not only you, but your friends will be summated at the wonderful improvement

Don't Spoil Your Child's Hair by Washing it

When you wash your child's hair be careful what you use. Many soaps and prepared shampoos contain too much free alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is Mulsified cocoanut oil shampoo, for this is pure and entirely greaseless. It is very

cheap and beats anything else all to Two or three teaspoonfuls of Mul sified in a cup or glass with a little warm water is all that is required. Simply moisten the hair with water, and rub the Mulsified in. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dan-druff. You can get Mulsified contain

oil shampoo at any drug store, and

family for months. Be sure your druggist gives you Mulsified.

Radiola V

Radiola V or RC —with dry cell batteries!

A new vacuum tube has made it possible. Radiola V and Radiola RC have been topping them all in popularity for dependability and long range receiving over thrilling distances up to 1,500 miles and more. Now both are converted to dry battery operation. This means greatly lowered cost-does away with bulky storage batteries—gives the faraway farmer the same good service it gives the city man. Loud speaker can be added.

No more need for expensive storage battery and charger. A big saving! And a saving made greater by the new offer—a combination offer of receiver and accessories - complete at a price remarkably low.

you have always known—the other is Quick Quaker.
Quick Quaker cooks in from 3 to 5 minutes. And it cooks to perfection. So it is almost like a ready-

rich, plump, flavory oats. A bushel of choice oats yields but ten pounds

of these delicious flakes. But in Quick Quaker the oats are cut before flaking. They are rolled very thin and partly cooked. So the flakes are smaller and thinner-that is all. And those small, thin flakes cook quickly.

Ask for Quick Quaker if you want this style. Your grocer has both. But always get Quaker Oats for their delightful flavor.

OIL SHARES FEEL EFFECT OF CUT IN **GASOLINE PRICES**

NEW YORK, April 27—148

ning Post in its copyrighted financial review today says:

"The cut in gasoline prices announced this morning came as a heaven-sent gift to those who have been selling stocks for the decline during recent weeks and they proceeded to make the most of it. The oil shares naturall declined and other dindustrial issues were inclined to weakness, but there was substantial buying in sections of the list in which a large short interest is generally thought to exist. Railroad shares made no response to some of the Post favorable earnings statements announced in a year or more and remained dull and irregular as for so many weeks past. of heavy buying. At an initial price of \$4.62 in this rapiket it was off a cent from the previous close, but the upturn carried it to \$4.63\%. Norwegian kroner were also stronger, following the announcement from Christiania that the Norwegian Parliament contemplated taking steps to assist the banks in distress, and closed at 17.38 cents, or 23 points higher than on yesterday. Spanish exchange continued to show weakness, the peseta dropping to 15.25 cents, which is a new low price for the year.

"Cotton showed a natural tendency to rally after yesterday's weakness, and this was aided by reports of bad weather in some parts of the belt and by several estimates from private sources pointing to a bad start for this year's crop. According to these calculations only 30 per cent of the cerop has been planted so far, whereas the normal amount would remark for the day. Wheat meanwhile conditions. How Your Taxes May Be Reduced

HE who whacks a tax can count on a hearing from the taxpayers and a reasonable amount of newspaper publicity. The suggestion may start in a Cabinet meeting, in a Treasury Department statement, in a chance phrase of a press interview, but it percolates rapidly. Tho Chairman Smoot, of the Senate Finance Committee, deprecates any move to change the taxes at the next session of Congress, and the New York Times favors giving the present revenue law more time to find itself, many newspapers are inclined to think that the Senator is reckoning without his host. "Oh, there's going to be a

merry time when the next Congress meets in December," gleefully exclaims a progressive Kansas paper, and an Ohio Democratic paper foresees "a bitter controversy over tax revision at the next session of Congress.'

In THE LITERARY DIGEST this week, April 28th issue, new taxation suggestions that have been advanced are explained, comments on the proposals of various groups in and out of Congress are presented, and the probable effect upon the people of any change in present taxation plans is pointed out. Back of Bonds Clothes Bonds Great Tailor Plant

HE perfected Bond tailoring is scientifically developed to the minutest detail, from the purchasing of the woolens to the finishing of a Bond garment. Our great Tailor Plant is equipped and designed to produce the best possible workmanship within the scope of human skill, at all times.

If you could but visit our plant you would find absolute harmony amongst the workers. It is this spirit of profound interest added to the expert skill of every individual worker, that is really responsible for the high standard of tailoring, which has made Bond's Clothes famous from coast to coast.

America's Smartest Styled Suits and Topcoats

Operating our own tailor plant, as we do, we are in a position to supply you with all the newest styles first. On top of this, our system of reaching our patrons eliminates the retailer entirely and saves you all the expense of distribution involved in the usual manner of clothes selling.

And we sell for Cash only. We never expect you to pay for those who "forget" to pay. Credit may be convenient, but it's expensive. All in all, we believe the saving you make at Bond's is fully \$10 to \$20.

A Saving of \$10 to \$20

Bond's New Gabardines \$19

and \$25

We are absolutely sincere when we say, that in our judgment, Bond's Clothes are worth \$10 to \$20 more than the prices we ask. We base our claims on what we know about our own quality and prices and what we know about the ordinary operators. Come in-compare -then use your own judgment. Looking costs you nothing and may save you considerable.

AMERICAN FISHERMEN OUT TO WIN

Having failed to defeat the Canadian Blue Nose with the Henry Ford or other stock fishing schooner, the Americans have set out to build a real racing boat in the hopes of capturing the honors this year. So here is the Columbia, just launched, costing \$33,000. She is 137 feet over all, 54 feet beam and draws 14.1 feet of water. She weighs 140 tons. Her mainmast is 92 feet in height and her sail spread will be 8800 feet.

WAITING FOR HER SUITOR TO MAKE GOOD

Miss Katharine Louise Littauer, daughter of Col. William E. Littauer of Gloversville, N. Y., returns to America from Paris, where her father, a multimillionaire glove manufacturer, recently prevented her marriage to William E. Doeller, an Indianapolis automobile salesman, by securing a writ of injunction in a Paris court. It is reported that Doeller has been told by Col. Littauer to go to work and prove that he can support a wife, in which case the parental ban would be lifted.

GERMANY'S STAGE WIZARD IS SUED FOR DIVORCE

Mrs. Max Reinhardt, Berlin actress, gave her husband something to think about just as he started on his tour of America, by bringing suit for divorce. Mrs. Reinhardt is a noted Berlin actress playing under the name of Elsie Heims. She seeks the custody of her two children, shown in this photograph with her.

MAY SOLVE WALL STREET MYSTERY

Herbert L. Wilson (seated at right) being grilled by William J. Burns, chief secret agent of the Department of Justice, and two of his officers at Los Angeles. Wilson asserts that he sold for \$3000 the high explosives which were used in making the bomb which wrecked a section of Wall Street and caused the loss of many lives. While Burns was inclined to discredit his story at first, it is said he is impressed with it now and believes that Wilson has supplied a lead that may result in the solution of the mystery.

"But was he not human, Tom?" Tom looked about him.

'Nay, m'lord, 'e was a gobling, master, a great, gloomy gobling with arms like windmills and legs like church steeples, and his eyes were spurting fire, m'lord, and his hat" -Here Shale laughed again, and spurred his horse.

"Aye, his hat, Tom. Was it not a tall furry hat, Tom?" And as his hearty laughter echoed through the stable yard, Tom stood

seratching his shock of hair in amaze. "Now, and how did he know that?" he muttered as he turned once more to his cleaning and his singing.

Shale rode steadily through the great grounds towards the wide gate that opened onto the road to Rive:

Swinging round into the main highway, Shale approached the village inn "The Amherst," which stands right hath e'er taken place within four walls.

He tied his horse to a hitching post, and mounted the little steps leading to the door of the inn.

Pushing it open, he strode into the taproom and ordered a mug of ale. Shale had no particular desire to drink, but the weather was warm; and the roads were dusty and, moreover, he considered a visit to the village inn a fine method of getting familiar with the people, and perchance learning something about the neighboring gentry.

He was also keenly anxious to learn if anyone other than Tom Brown and his sweetheart, Poll, the smith's daughter, had seen Peter carrying the dead Lord Anderley from the glade the previous night.

Three men were drinking at the bar when he entered, and none of them looked round or observed him. He walked a couple of paces into the room, then stopped suddenly. One of the men was a little fellow, plump and round, clad in long riding cont and longer jack boots. His companien was a tall, lanky fellow with cadaverous face, over which a long seac extended.
